

Appl. No.: 10/701,698
Response to final Office Action dated March 31, 2010

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (Cancelled).

Claim 2 (Currently Amended): A connector device for connecting a feeding line of an enteral administration set to a laminated paper packaging system containing a composition, the connector device comprising:

a rigid tube part being adapted to sealingly attach to the feeding line of the enteral administration set, the tube part defining a first part of a passageway allowing the flow of the composition contained in the laminated paper packaging system to the feeding line of the enteral administration set, the tube part comprising a first venting means for venting an interior of the laminated paper packaging system,

first means for threadably attaching the rigid tube part to the laminated paper packaging system, whereby the connector is screwed to the laminated paper packaging system, the first means further defining a second part of the passageway when threadably attached to the laminated paper packaging system,

a cutting member for opening the laminated paper packaging system upon screwing the connector device onto the laminated paper packaging system, the cutting member protrudes from an interior of the first means and comprises a center axis that is offset from a center axis of the connector device, and

third means for fixedly attaching the rigid tube part to the laminated paper packaging system, whereby the connector device is secured to an interior surface within the laminated paper packaging system.
